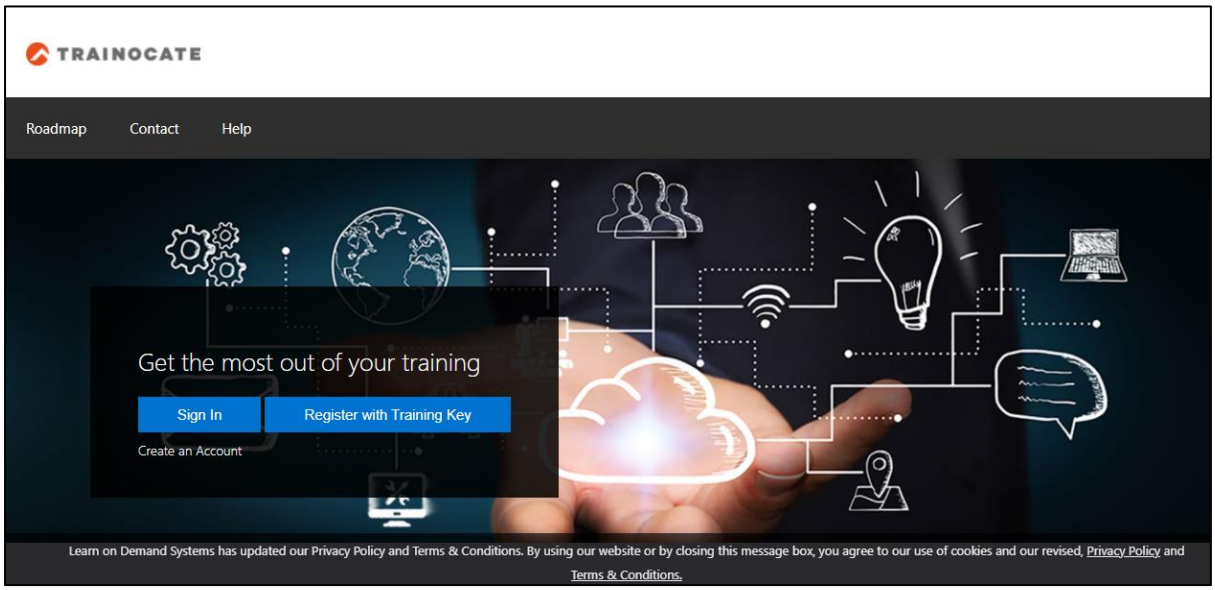
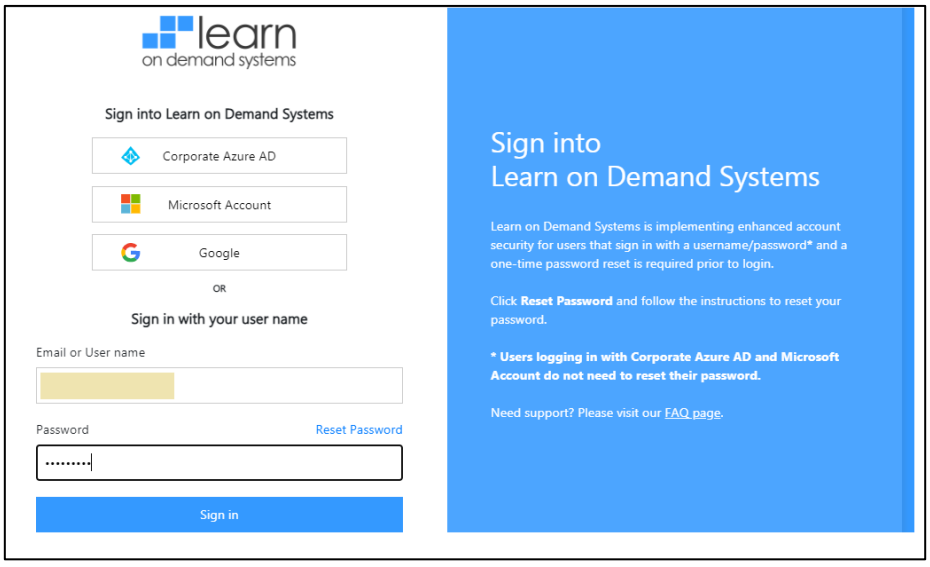
Accessing the Lab:

Step 1. To access the LODS website the browser should use updated browser version.

Step 2. To access the lab, launch a browser and browse to the URL https://trainocate.learnondemand.net

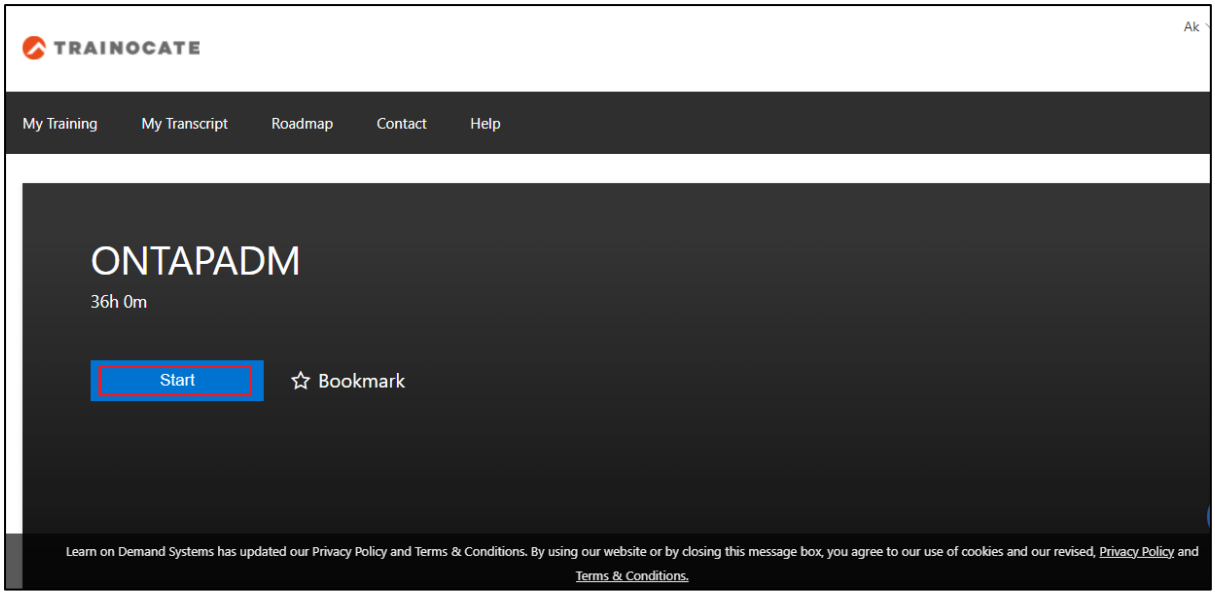


Step 3. **Sign in** to the link using the credentials provided by the trainer. After successful login, you will be landing on the Current Training page.



Step 4. From the Course Assignment, ensure the status of the course is in **Not Started** and click on the **ONTAPADM** link.

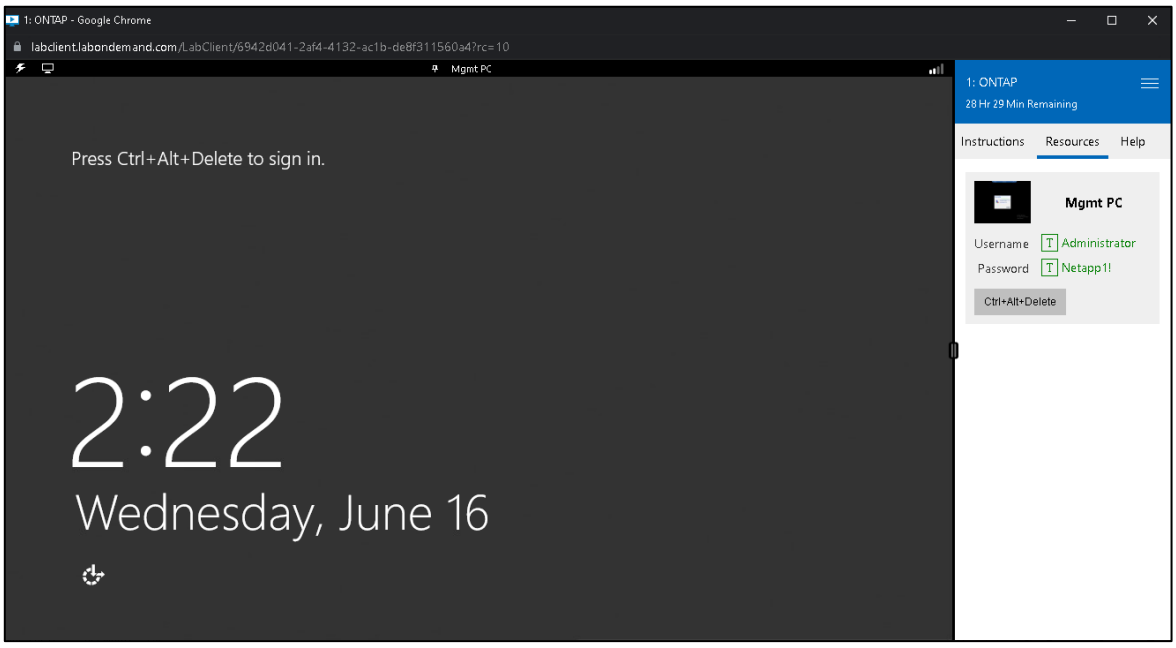
Step 5. Click **Start** in the next page.



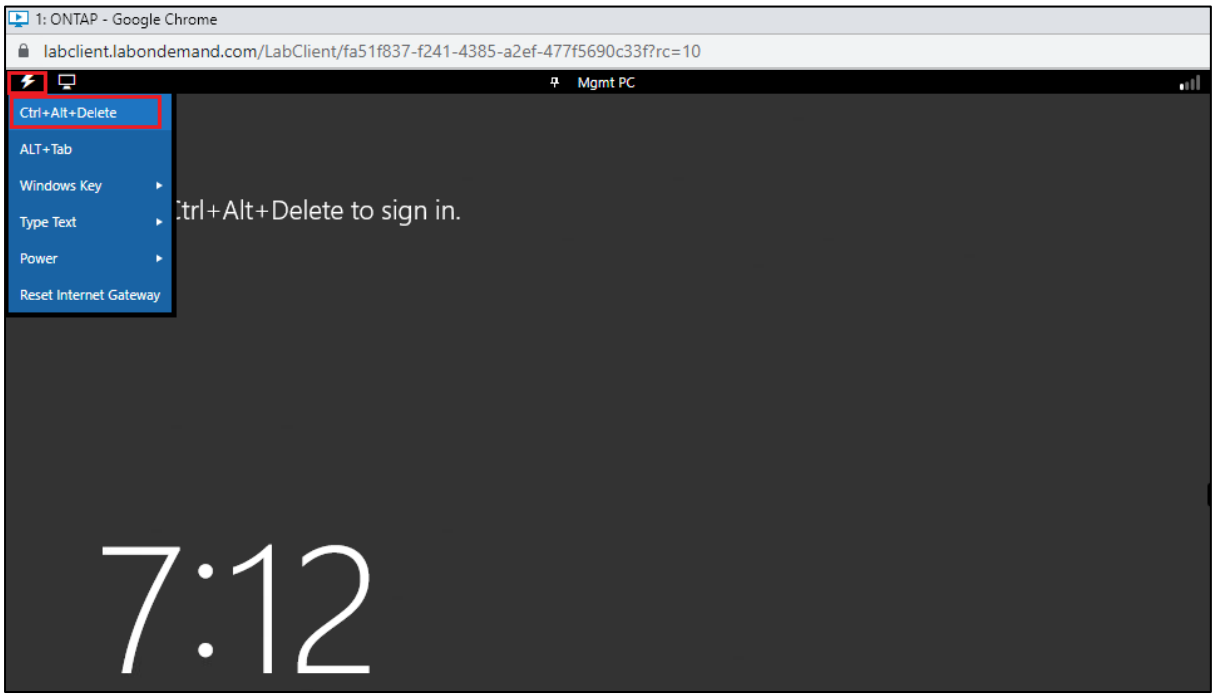
Step 6. Your lab will be launch on a new browser window.

Step 7. Wait for approximately 5 minutes to setup your lab environment.

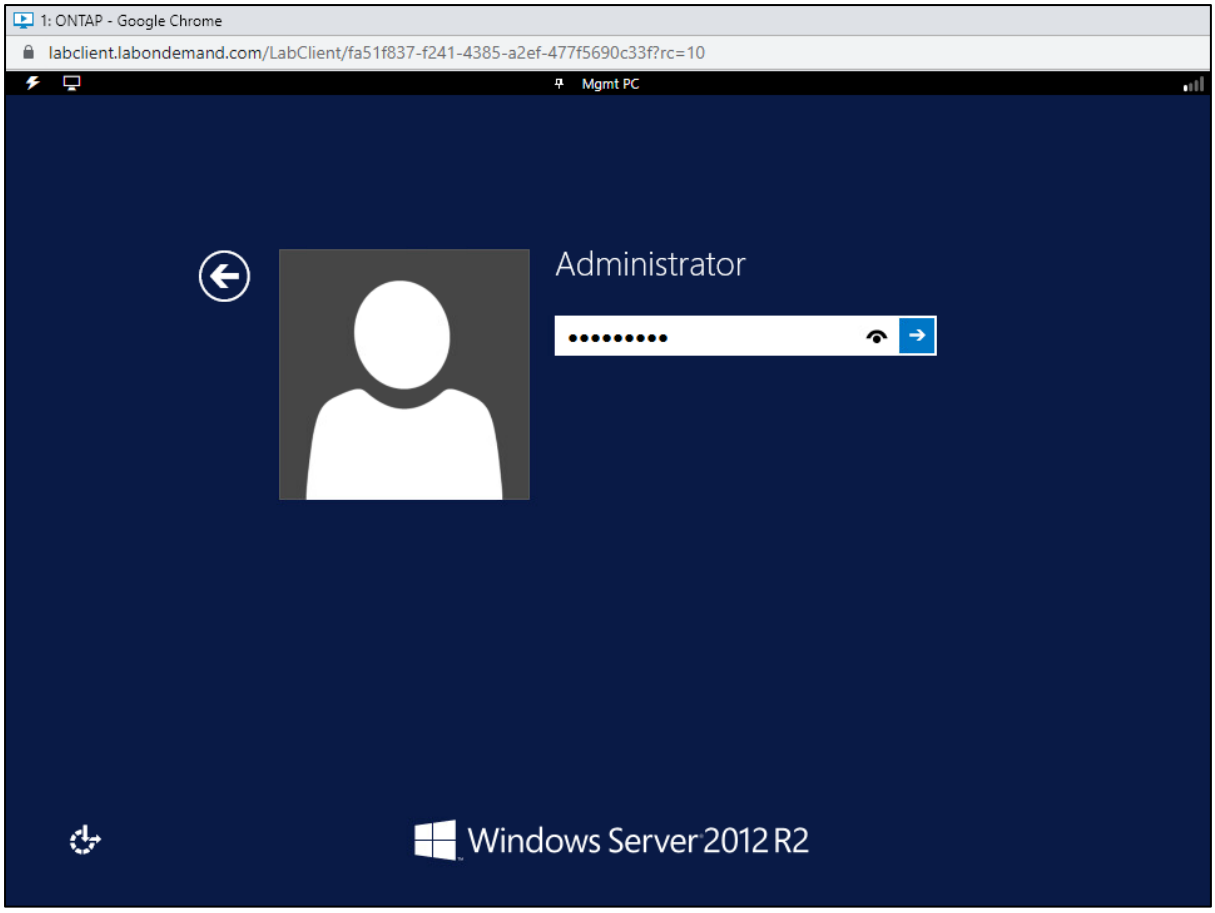
Step 8. After completing the setup, you will be able to access your assigned lab equipment named as **Mgmt PC**.



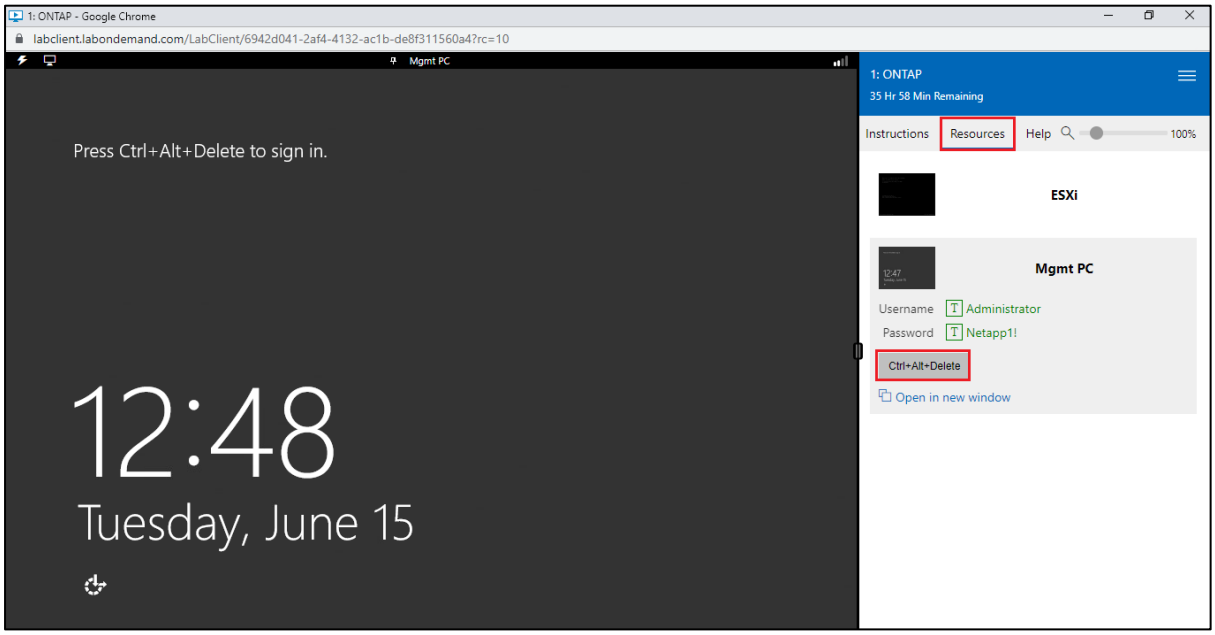
Step 9. From the top left corner, click on **Commands** icon and select **Ctl+Atl+Delete**.



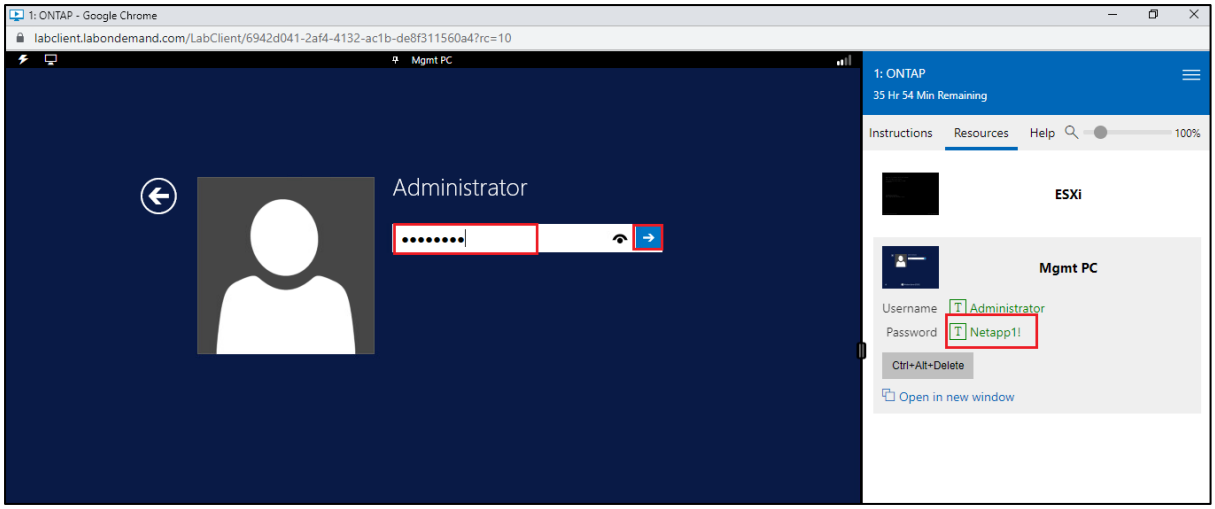
Step 10. Login to the **Mgmt PC** using the credentials **Administrator/Netapp1!.**



Step 11. You can also view the **Ctl+Alt+Delete** option under **Resource** tab from the right side window.

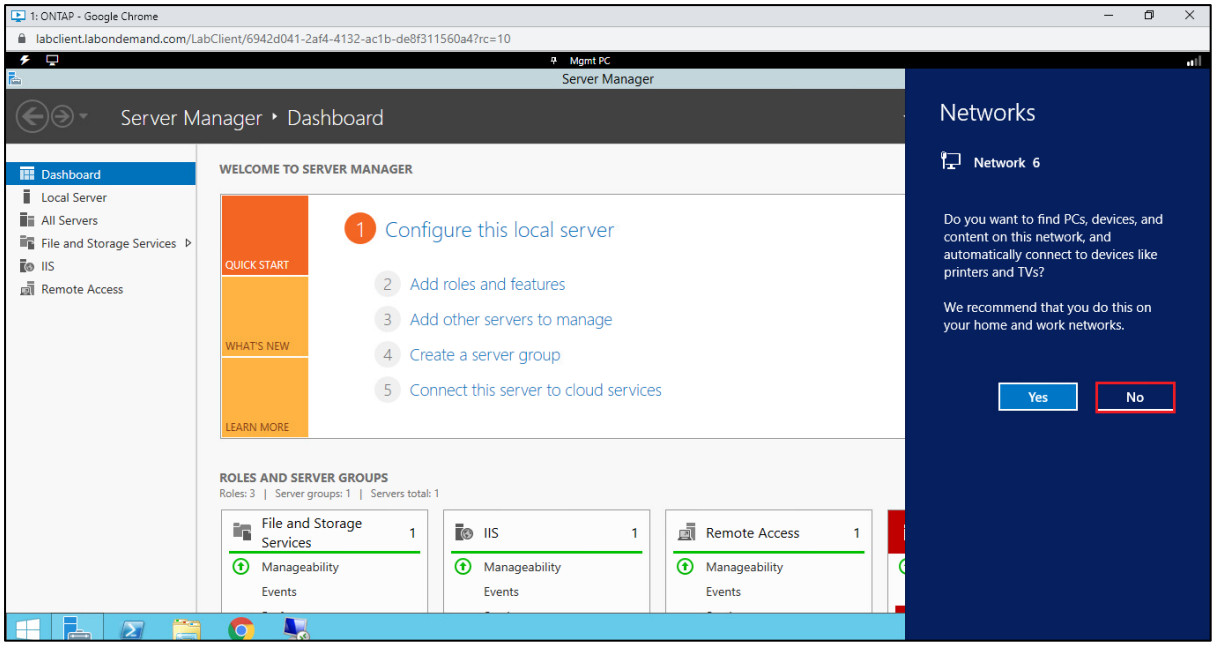


Step 12. Click on the **password field** and from the right side window select the **password**, it will automatically copy the password into the password field.

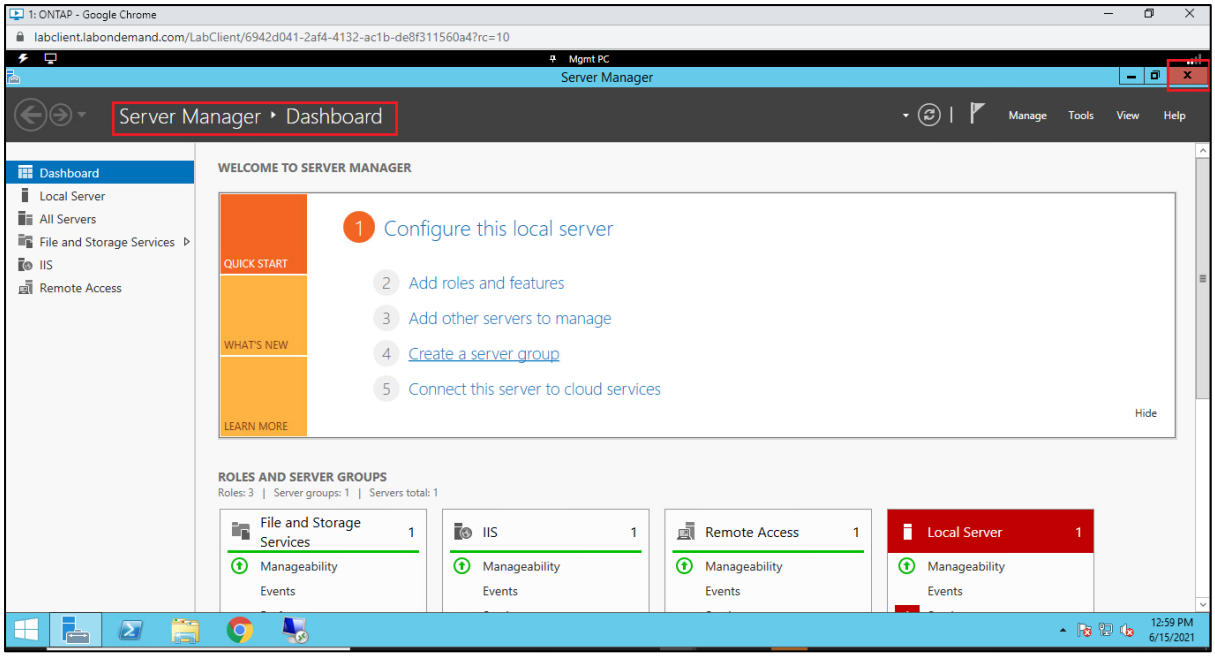


Step 13. Verify that you can see the start page of your assigned windows server 2012 R2.

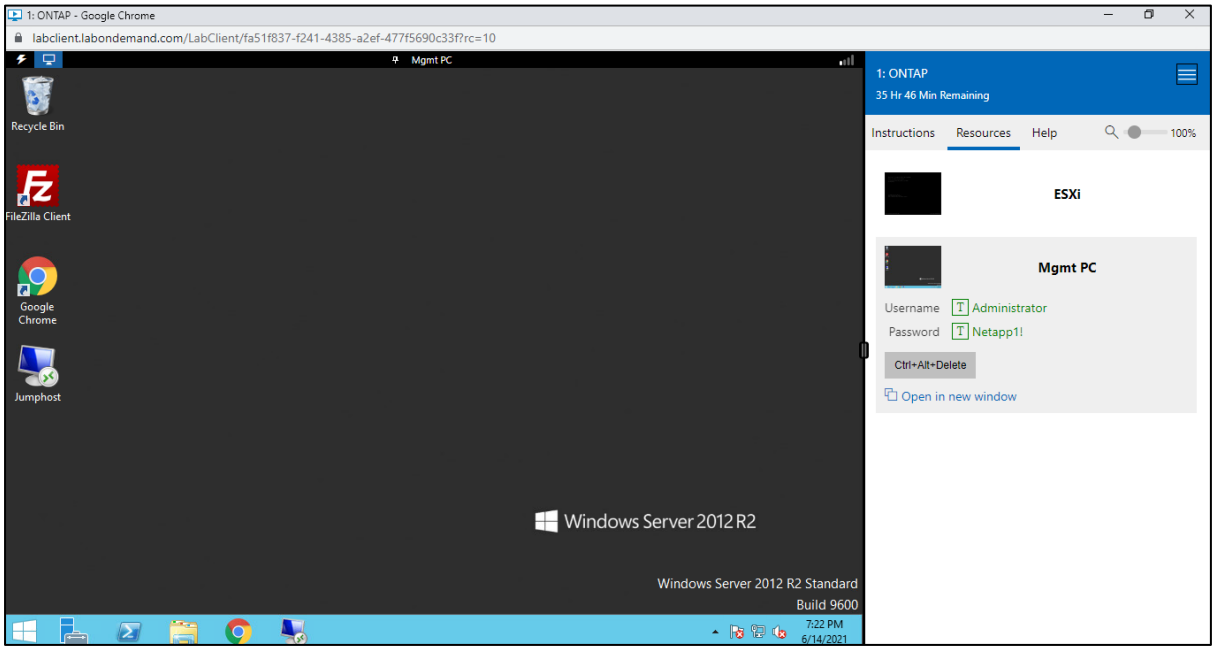
Step 14. Click **No** to ignore the Network discovery from the Network prompt.

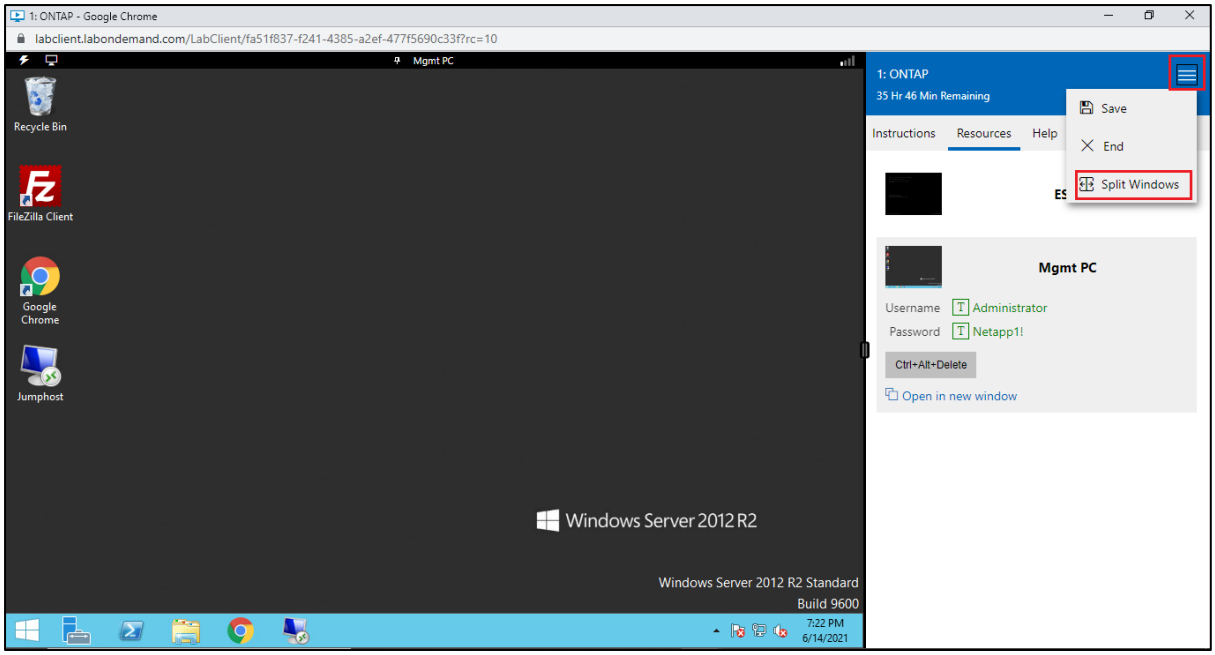


Step 15. **Close** the **Server Manager** window which opened automatically.

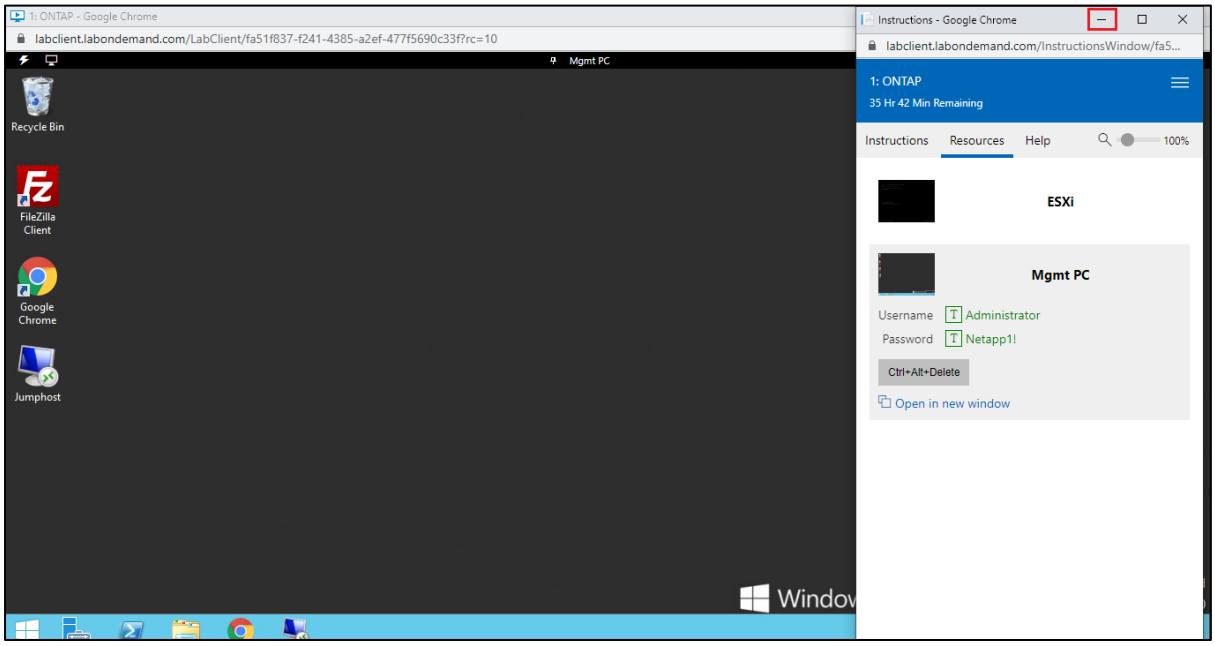


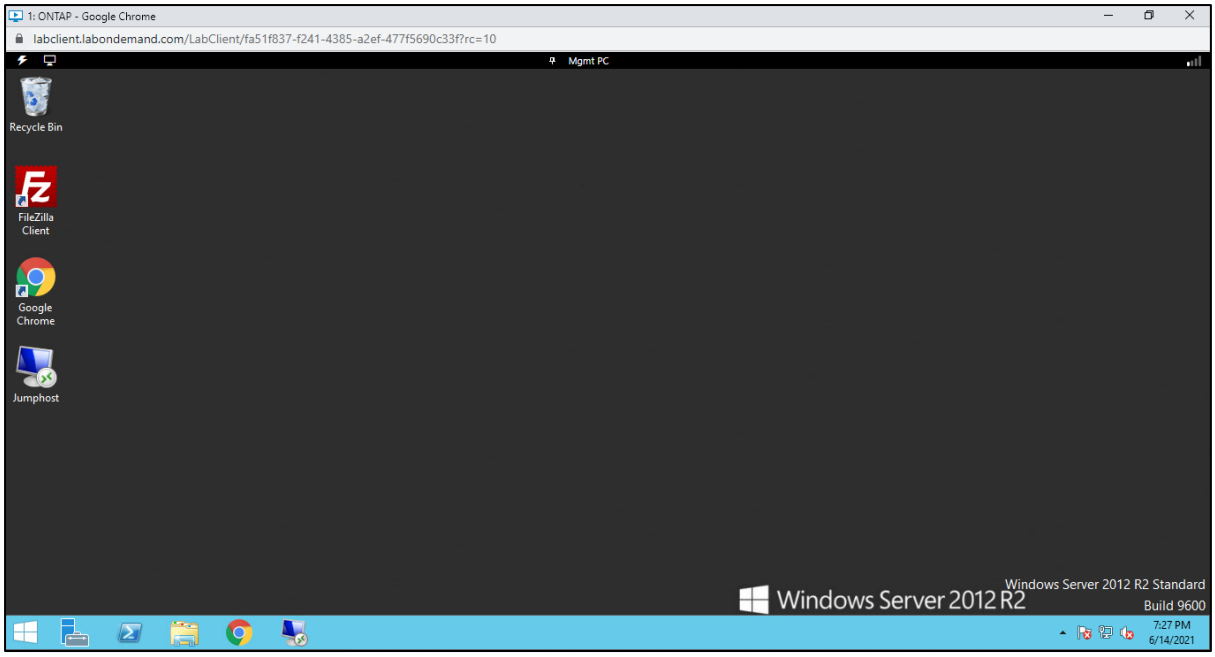
Step 16. If you need to work on full screen view experience, then click on the **Menu** icon in the top right corner and select **Split Windows.**





Step 17. You can **Minimize** the Instruction window and start working on windows server 2012 window for better experience.

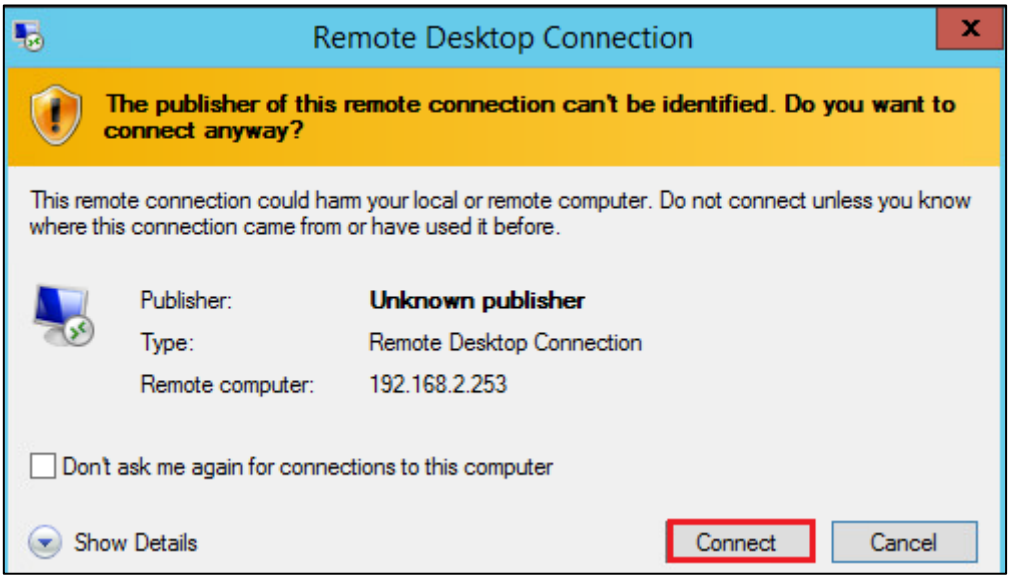




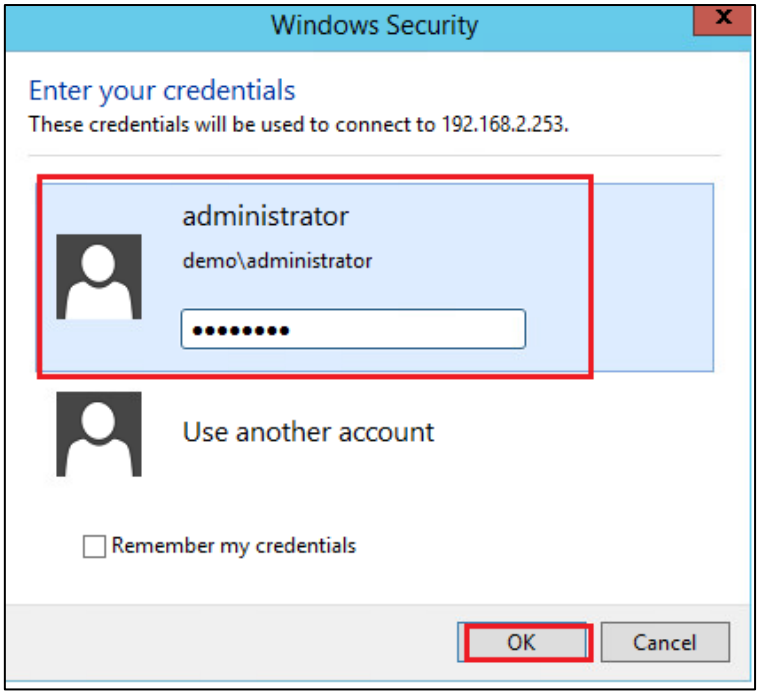
Step 18. It takes approximately 10 minutes for all VM to boot up, so please wait for 10 minutes.

Step 19. After 10 minutes access the **Jumphost** via RDP, from your **Mgmt PC** desktop open the shortcut of saved RDP session with the name **Jumphost.**

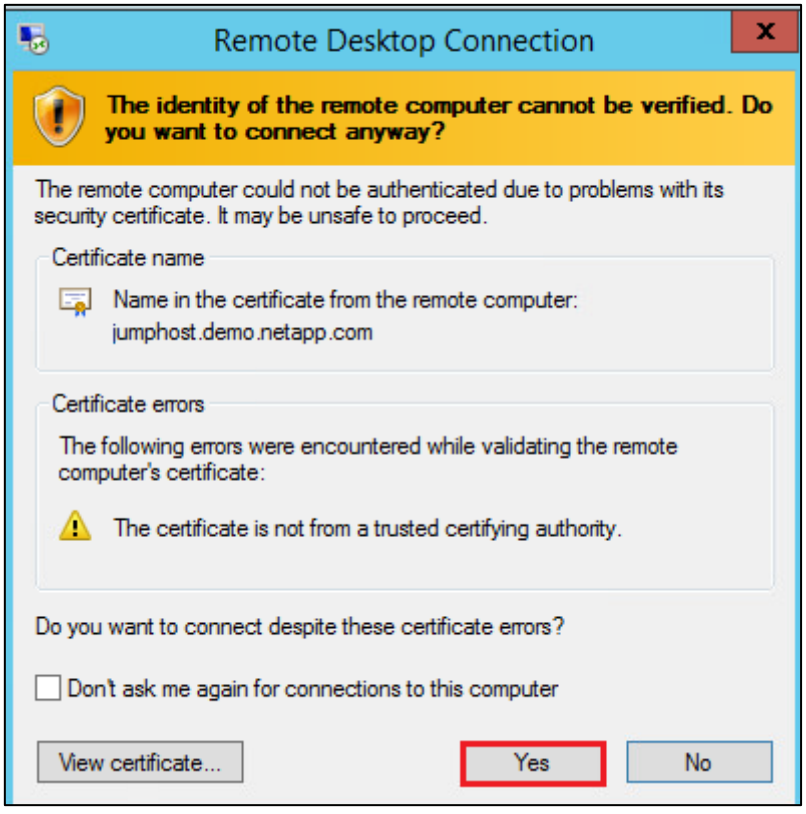
Step 20. In the security page click **Connect.**



Step 21. In the **Windows Security** box, enter the password as **Netapp1!** and click **OK.**



Step 22. Click **Yes** in the certification check prompt.

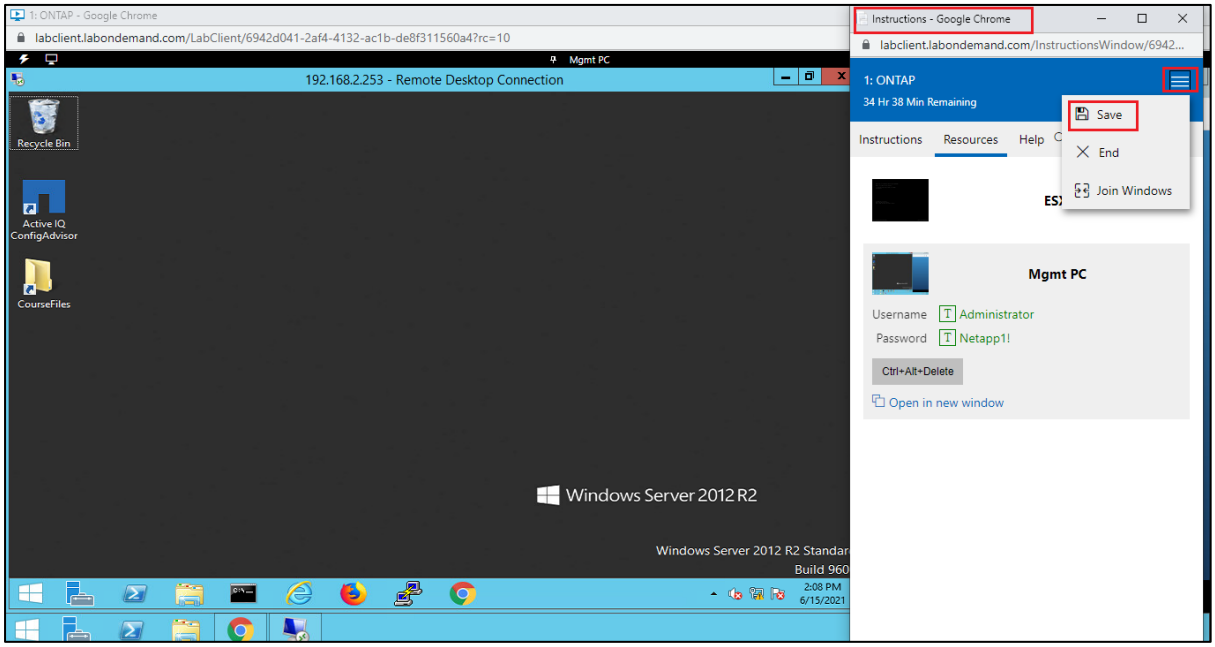


Step 23. Now you can proceed with the labs by using the Jumphost VM.

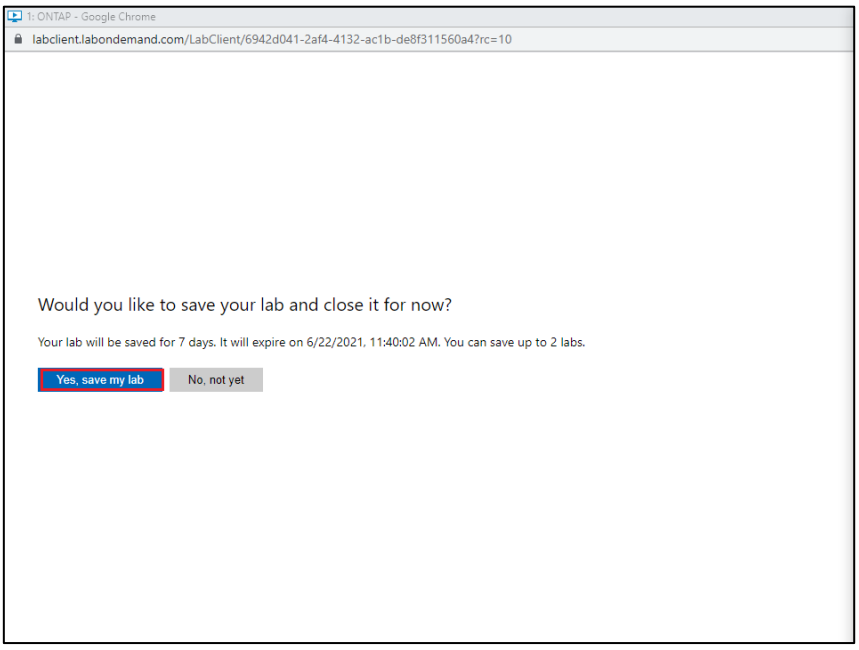
Note: When you complete the labs you can click on the Main Menu and select End to end the lab activity. This will terminate the lab and will not save your progress, so make sure to do it only when you want to end the lab.

Step 24. From the split window if you want to join it back click on the Menu icon and select **Join Window.**

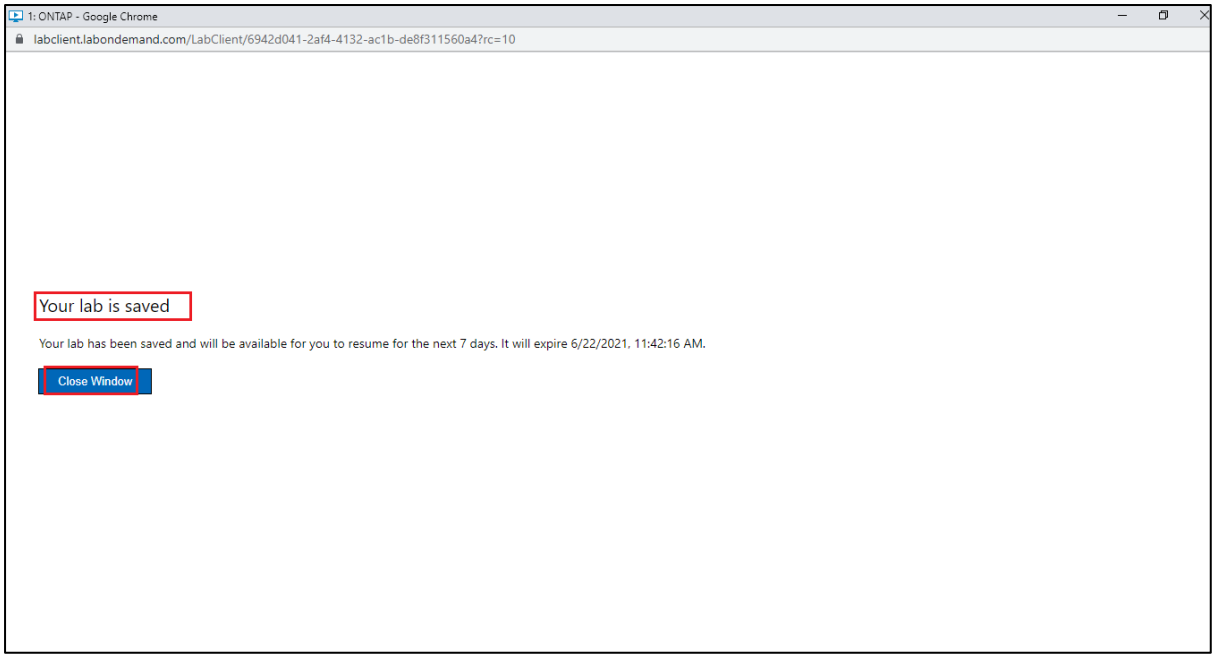
Step 25. Click on **Menu** icon and **Save** the session.



Step 26. Click on **Yes, save my lab.**



Step 27. Verify that your lab is saved successfully and close the window.



Step 28. From the on demand browser page click on **Continue** to access your lab workspace again.
